CANBERRA ACT 2600

30 OCT 2006

Mr Geoffrey Booth  
Managing Director  
Black & White Engineering Solutions  
14 Ellesmere Street  
PANANIA NSW 2213

Dear Mr Booth *Geoff*

On behalf of the Australian Government, I wish to congratulate *Black & White Engineering Solutions* on receiving the *AusIndustry Award for Excellence in Commitment to Skills and Education* at the *Australian Electrical and Electronic Manufacturers Association (AEEMA) Awards 2006* for your joint project with *Corrective Services Industries*.

The accolade is extremely well deserved and recognises that Australian manufacturers are key drivers of economic growth and national prosperity.

Innovative manufacturers such as *Black & White Engineering Solutions* make an extraordinary contribution and inspire others to succeed in a world that is increasingly competitive and technologically advanced.

The Australian Government is proud to have sponsored the *AEEMA Excellence Awards* through its business delivery division, AusIndustry, in the Department of Industry, Tourism and Resources, which provides a range of incentives to help Australian manufacturers become more innovative, investment ready and internationally competitive.

Once again congratulations on your success.

Yours sincerely

*Ian Macfarlane*
